GREENELF FERTILIZER APPLICATOR DOSAGE INFORMATION

The following is our application dosage for our difference size plants using APEX LOW RATE 20-10-10 on our GreenElf Applicator. The information provided should be used as a reference point and each user should validate and calibrate their own GreenElf to make sure they are getting the right dosage in weight according to the recommendation of the fertilizer manufacturer and/or your determined amount.

<u>Pot Size</u>	<u>Weight</u>	<u>GreenElf Dosage</u>
#1 Gallon	9 grams	50
#2 Gallon	13 grams	85
#3 Gallon	23 grams	120
#5 Gallon	36 grams	200
#7 Gallon	50 grams	250
